
SPACE Pacific Presents

South Pacific Region Satellite & Cable Show '97

January 21-25, 1997

University of Auckland Tamaki Campus

WELCOME BACK!

As those who have attended an SPRSCS event previously well know, there is something quite different about our annual "show." First - the group is relatively small, but, second - very diverse in origin and experience. Attendees from Pacific Island nations bring tales of fighting inclined orbit satellites for every last fraction of a dB with 7 metre dishes while our more fortunate Australian SPACE members somehow feel uncomfortable if they cannot make a 1.8m dish work properly on AsiaSat 2! What we all share

COOP and DW's Johannes
Firsbach at SPRSCS '96

is a common desire to create as many TV programming channels for our customers as possible - not a small challenge given the exceptionally rapid development of new satellites and new transmission formats.

During SPRSCS '96 we were all delighted to have as a presenter Johannes Firsbach, Head of Programme Distribution for Deutsche Welle (Germany). It was at our '96 gathering that DW first detailed their plans for the "European Bouquet" which during the past 12 months has grown into one of the most important satellite system selling tools available to most of us. Now Firsbach is back, this time with the first details released world-wide of MediaNet - the new "Internet via satellite service" package piggybacking along with the DW TV service. That Deutsche Welle will come half way around the world each January to share with us their latest new-technology project (and first in the world at that) is a significant vote for the importance broadcasters attach to this region.

We all come to learn and to teach - to share our experiences so that as each returns home we are better, smarter, more capable than when we arrived. That is the unique spirit of SPRSCS - people of many varied backgrounds coming together annually to make the world just a little bit smaller - and a little bit better.

Welcome back to Auckland and the leading edge of technology!

SPRSCS '97 SCHEDULE ♦ THURSDAY JANUARY 23

8.30AM: SPRSCS ground transport departs Barrycourt for show

9AM: Registration desk opens foyer of building 722

9:15-9:45AM: Coffee, tea and rolls "curb-side" in front of building 723

10AM: FACTS and FOIBLES of the DVB Compliant Receivers Covering DVM, Nokia, Pace, Panasat, S-A and Skandia models (a series of presentations by representatives of leading industry receiver suppliers)

11.15AM: What S-A Forgot To Tell You About the D9223 (Robin Colquhoun, independent consultant) - demonstration of the "Super PowerVu"

12.15 - 1.30PM: EXHIBIT HALLS OPEN, lunch available "curb-side"

1.45PM: The Basis for Internet Delivery Via Satellite (Johannes Firsbach, Deutsche Welle, Germany on behalf of MediaNet with assistance from Horst Wieser of Wieser Electronic, Germany)

3PM: The Expanding World of Pacific Ocean Region Geostationary Satellites (Mark Long of MLE, Inc., Chiang Mai, Thailand)

4PM: ETHNICITY - Targeting Dish Sales to Those With Cultural and Technical Interests That Differ

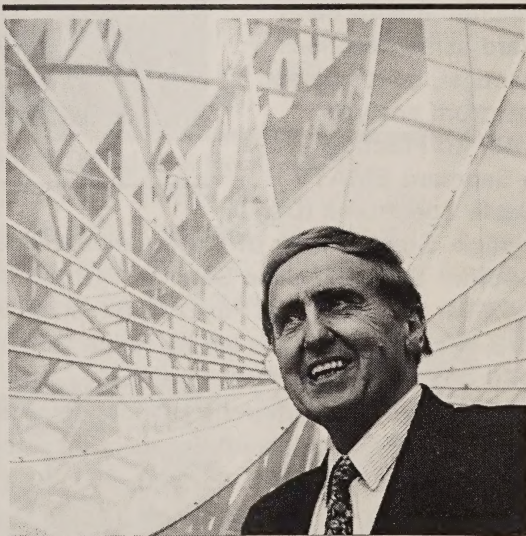

From the Mainstream (Jim Hodgetts, TV5, Paris, France)

4.30 - 7PM: EXHIBIT HALLS OPEN .

6.30PM: SPRSCS ground transport departs University for Barrycourt

8PM - 11PM: "Satellite Story" videotapes through Barrycourt SMATV system on channel normally occupied by EM TV (PNG)

8PM - 'til: "SPRSCS AFTER-HOURS" in Discovery Room at Barrycourt Function Centre (cash bar) featuring additional discussions of DVB Compliant receivers

PIONEER - Norman Barry of Barrycourt is NZ's 1st SMATV system operator

SPRSCS '97 SCHEDULE ♦ FRIDAY JANUARY 24

8.30AM: SPRSCS ground transport departs Barrycourt for show

9AM: Registration desk opens foyer of building 722

9AM: SPACE MEMBERS ONLY - Land Use, Zoning, building permits

9:15-9:45AM: Coffee, tea, rolls "curb-side" in front of building 723

10AM: The Real World of Cable TV Entrepreneurialship (presentations by privately owned cable TV system pioneers)

10.45AM: Satellite Dish Antenna System Selection Criteria (Charles Margiotta, San Diego, Ca)

11.30AM: Satellite Master Antenna Systems (Bernd Pawlik, WISI, Germany)

12.15 - 1.30PM: EXHIBIT HALLS OPEN, lunch available "curb-side"

12.15 1.30PM: Lunchtime with Barry Ward as he describes a practical, do-it-yourself spectrum analyser

1.45PM: Practical Ways to Segment SMATV /Cable Spectrums (Daniel

Bostick, Steve Shafer of Communications & Energy Corp., Syracuse, NY)

2.45PM: Safe and Sane Satellite Dish Mounts (Eric Fien, SSIA, Australia)

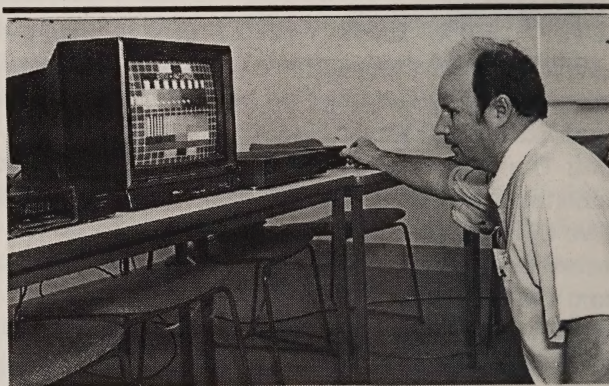

3.45PM: Practical Tips For DVB Receiver System Installs (A sharing of DVB install experiences led by Robin Colquhoun)

4.30 - 7PM: EXHIBIT HALLS OPEN

6.30PM: SPRSCS ground transport departs University for Barrycourt

8PM - 11PM: (Scheduled) Europe's "Doctor Dish" satellite TV programme through Barrycourt SMATV system.

8PM - 'til: "SPRSCS AFTER-HOURS" in Discovery Room at Barrycourt Function Centre (cash bar) featuring demonstration of cable TV scrambling technology (by CEC, Syracuse, NY) and Annual SPACE Awards.

LUNCH with Barry Ward and his analyser

SPRSCS '97 SCHEDULE ♦ SATURDAY JANUARY 25

8.30AM: SPRSCS ground transport departs Barrycourt for show

8.30AM: Saturday session registration desk open foyer building 722

9AM - 4PM: EXHIBIT HALLS OPEN

9 - 10AM: SPACE MEMBERS ONLY - Legislative Campaign for 1997 with guest speaker Trevor Yaxley of Family Television Network (722.201)

-SPACE Ku-Direct (for SKY Network TV Project) Mini-Seminar-
10-12N, 2 - 4PM in lecture theatre 721.201 (last on left - signs posted)
hosted by Mark Long (MLE Inc, Chiang Mai, Thailand).

This session open to all full-attendance registrants as well as those specifically signed up for this course.

-SPACE/PC Magazine Internet Via Satellite Seminar-

11AM - 3PM in lecture theatre 723.201 (in right hand building where exhibits are housed; signs posted) with following speakers:

Johannes Firsbach (Deutsche Welle and MediaNet, Germany), Horst Wieser (Wieser Electronic, Germany), Charles Margiotta (San Diego, Ca.) and Damon Rutherford (Civic Enterprises, Christchurch), John Lynam (Bay Satellite TV Ltd., Napier). This course optional extra for SPRSCS '97 full attendance registered delegates (\$25).

12.30 - 1.30PM in lecture theatre 721.201 - Special Event. Gerry Blachley, founder of ADL (Simi Valey, Ca.) and creator of many of the world's most outstanding feed antenna designs "On-Stage" to answer your questions concerning antenna feed systems at C and Ku-band.

4.30PM: Ground transport departs University for Barrycourt

SPRSCS '97 EXHIBIT HALLS

Exhibits are located in building 723 (on right as you face trio of buildings from antenna lot). Fire regulations required that exhibit room doors NOT be wedged open at anytime. All January 23 and 24 sessions are being held in the lecture theatre of building 723; on the left of the foyer as you enter the front doors. A signboard outside of the lecture hall announces the daily schedule and any changes as may occur from the published schedule in this programme.

Building rules include NO SMOKING inside of ANY building.

EXHIBIT HALL HOURS

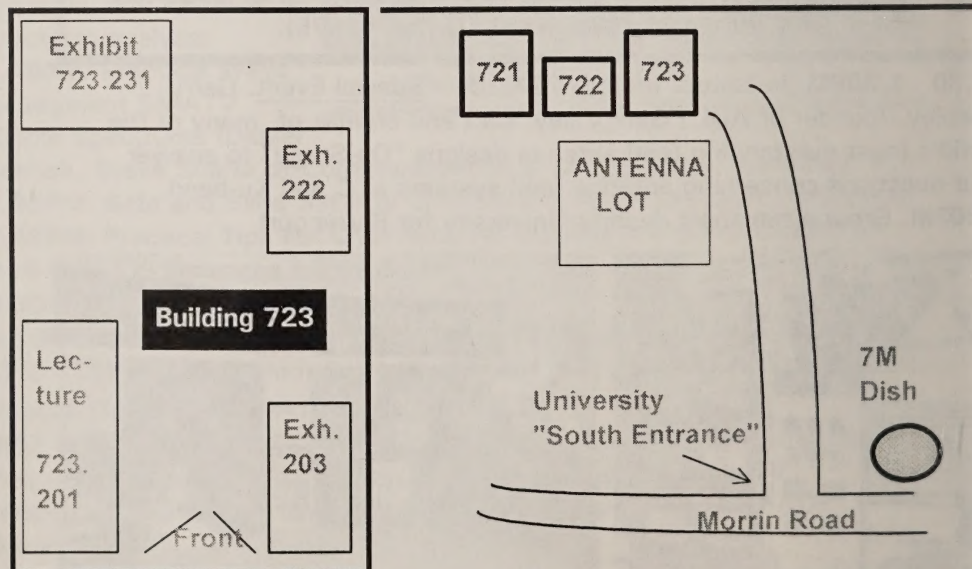

Wednesday Jan 22: Exhibit hall set-up day, although it may seem appropriate to simply "drop in" and say hello - we ask that you NOT do so unless you are officially registered with one of the exhibitor firms.

Thursday Jan 23: 12.15 to 1.30PM, and, 4.30 - 7PM

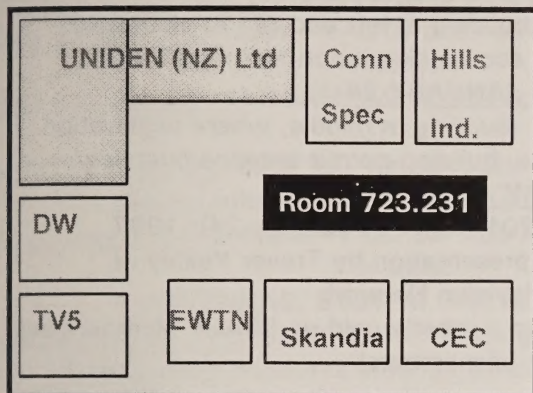

Note: Barrycourt ground transportation vehicle leaves University grounds at 6.30PM!

Friday Jan 24: 12N to 1.30PM, and, 4.30 - 7PM

Saturday Jan 25: 9AM to 4PM

SPRSCS '97 EXHIBITORS

Room 723.231

TV5/Paris: Asia-Pacific French language TV network

Uniden (NZ) Ltd: Complete DTH/TVRO systems, analogue and digital

...

Bay Satellite TV Ltd: Complete line of DTH, TVRO, SMATV equipment.

Augat Pty Ltd: Full line fibre, RF connectors, cable TV plant equipment

AvCOMM Pty Ltd: Complete line of DTH, TVRO equipment

Goldstar (NZ): Cable ready TV receivers, VCRs

Mark Long (MLE) Inc.: Guide and reference books, SPACE Certification Course administrator

Southstar Media: Programming representation including CMT, Deutsche Welle, others

TelSat Communications Ltd: Complete line DTH, TVRO, SMATV equipment,

CEC/Communications & Energy Corp.
Filters, traps, cable headend interdiction equipment.

Connector: Fibre optic, RF connectors and cable TV accessories

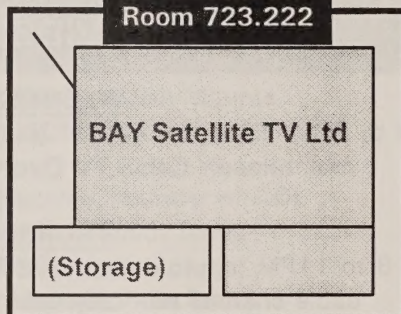

DW/Deutsche Welle: European Bouquet and Internet programming

EWTN/Eternal Word TV Network:

Global Catholic Network

Hills Industries (Ku-band dishes)

Room 723.222

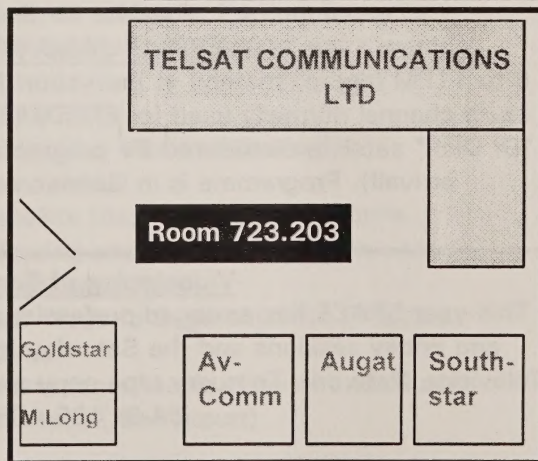

BAY Satellite TV Ltd

(Storage)

TELSAT COMMUNICATIONS LTD

Room 723.203

Goldstar

M.Long

Av-Comm

Augat

Southstar

SPACE MEMBER AGENDA

-WEDNESDAY JANUARY 22-

3 to 4PM/ Theatre 721.201 (building at left end of trio of theatre buildings): Programme access discussion and report

-FRIDAY JANUARY 24-

9 to 9:45AM/ Theatre 722.201 (building in middle, where registration foyer is maintained): Land use, building permit antenna overview

-SATURDAY JANUARY 25-

9 to 10AM/ Theatre 722.201 (same as January 24): 1997
Legislative Campaign with presentation by Trevor Yaxley of
Family Television Network

Note: These meetings open only to currently paid-up SPACE Members (all classes of members)

SPRSCS '97 VIDEOTAPE PRESENTATIONS

-WEDNESDAY JANUARY 22-

1 to 5PM/ Theatre 722.201 (building in middle where registration foyer is maintained): Cable TV Overview - by Society of Cable Television
Engineers

-THURSDAY JANUARY 23-

8 to 11PM (approximately) at Barrycourt Motor Inn on SMATV system
cable channel normally used for EM TV (check in your room): The
Satellite TV Story

-FRIDAY JANUARY 24-

8 to 11PM (approximately) at Barrycourt Motor Inn on SMATV system
cable channel normally used for EM TV (check in your room): Europe's
"Dr Dish" satellite distributed TV programme (scheduled - subject to air
arrival!). Programme is in German and English, inter-mixed.

-Videotaping of Seminars-

This year SPACE has arranged professional videotaping of all Thursday
and Friday sessions and the Saturday Internet session with Family
Television Network. To query tape copy availability, call Trevor Yaxley at
64-9- 425-4054

TECHNICAL HIGHLIGHTS ♦ SPRSCS '97

-MPEG-2 DVB and NOT DVB COMPLIANT-

Thursday January 23: 10AM - FACTS and FOIBLES of the DVB Compliant Receivers

Thursday January 23: 11.15AM - What S-A Forgot to Tell You About the D9223

Thursday January 23: 8PM 'til - (at Barrycourt Motor Lodge, Discovery Room) Informal discussion of DVB receivers

Friday January 24: 3.45PM - Practical Tips for DVB Receiver System Installs

-ANTENNAS, SYSTEM INSTALLATIONS-

Thursday January 23: 3PM - The Expanding World of Pacific Ocean Region Geostationary Satellites (new satellites planned over coming 12 months)

Friday January 24: 11.30AM Satellite Dish System Selection Criteria

Friday January 24: 12.15 - Do It Yourself Spectrum Analyser

Friday January 24: 2.45PM - Safe and Sane Satellite Dish Mounts

Saturday January 25: 10 - 12n, 2 - 4PM - Ku-SKY-Direct Satellite System Mechanics

Saturday January 25: 12.30-1.30PM - Gerry Blachley, founder of ADL (Simi Valley, California), answers your questions about feeds

-PROGRAMMING, MARKETING-

Thursday January 23: 1.45PM - The Basis for Internet Via Satellite

Thursday January 23: 4PM - Ethnicity as a Market for Dish Systems

Saturday January 25: 11AM - Internet Symposium (optional extra event)

-SMATV, CABLE TV-

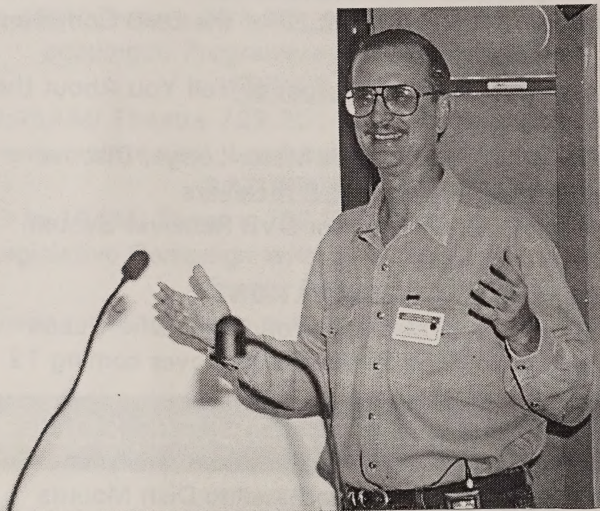

Friday January 24: 10AM - The Real World of Cable TV Entrepreneurialship

Friday January 24: 11.30AM: Satellite Master Antenna Systems (design of satellite-IF distribution allowing each viewer to directly "tap into" the satellite antenna head)

Friday January 24: 1.45PM - Practical Ways to Segment SMATV/Cable Systems

Friday January 24: 8PM - 'til - Demonstration of cable channel interdiction techniques (Discovery Room, Barrycourt)

SPACE/MARK LONG CERTIFICATION COURSE

Educator, author, diplomat Mark Long has developed a world encircling reputation as the most knowledgeable and focused of our group of satellite specialists. He grew up in the business, producing the first-ever "World Satellite Almanac" (1985) and a host of reference publications that have sold more than a million copies.

Long brings to the Pacific - Asian region his remarkable skills as a teacher of the satellite receiving system art. Based in a recently established facility (home) in Chiang Mai, Thailand, Long routinely trains entire satellite operating firms (most recently, Malaysia's MEASAT staff). The SPACE Installer/Dealer Mark Long Certification Course was created during SPRSCS '96 as a tool to aid entrants into the new world of satellite to acquire the specialised skills required to be effective. The course, routinely offered through SPACE Pacific on a "correspondence" basis, is presented during SPRSCS '97 (January 21 and 22) with Mark as a "live teacher" at the identical course fee applying to the correspondence version.

Regular reports on the course and its progress appear in the privately circulated "SPACE Membership Notes" of members. A second version of the course will be offered as an option to SPACE Members in April/May. Those who missed the 1997 live training sessions should register now for 1998!

SPACE BEFORE AND AFTER HOURS

SPACE is all about people-one on one, exchanging information, sharing views, forging new friendships that will endure long after each participant has returned home.

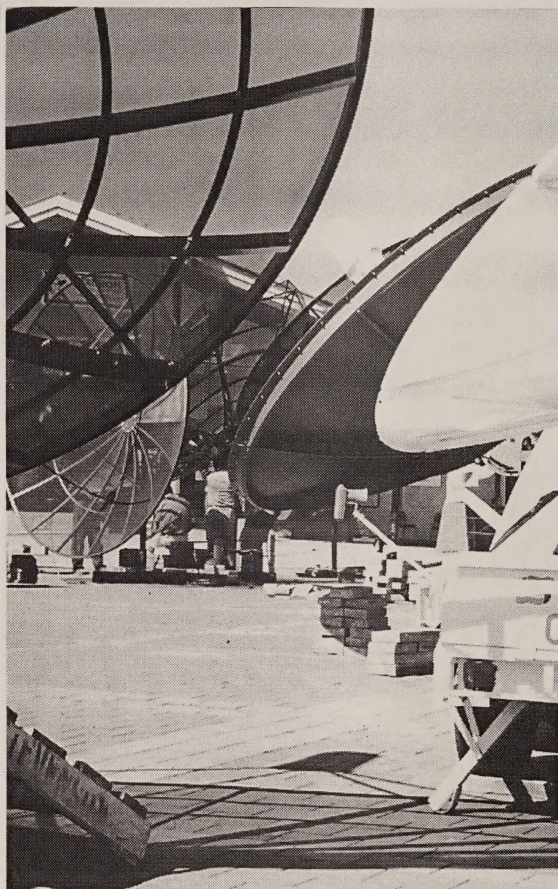

One of the favourite spots to meet and exchange views is our antenna lot where suppliers have installed multiple dishes for demonstration. Thursday - Friday morning "tea/coffee" and daily "curb-side lunch wagon service" are also scheduled in front of building 723.

A new "spot" this year is the Discovery Room, located in the Barrycourt Function Centre between wings of the Barrycourt Inn facility (same building as restaurant).

"SPACE / SPRSCS After Hours" is scheduled in the Discovery Room (no naming

rights here - a coincidence!) from 8PM - 'til, Thursday January 23 and Friday January 24. Directions: From main Barrycourt building cross the parking lot to restaurant - inside to right, then left up the stairs to the Discovery Room.

Of special interest - a demonstration using the Barrycourt SMATV system - of cable channel scrambling / descrambling techniques Friday evening as well as our first-ever "SPACE Awards" programme (short and perhaps sweet!).

ABOUT BECOMING A MEMBER OF SPACE

Membership in SPACE Pacific Ltd. is a commitment on your part to be a participant in building for the future of satellite fed programming services in the Pacific and Asian regions. Members receive discounts when attending the annual SPRSCS (for registration fees), some supplier member firms offer trade discounts to SPACE members beyond normal discounts.

Additionally, SPACE provides educational and self-help opportunities for members through steering committees and study groups that respond to the challenges of a rapidly developing home and commercial satellite dish world.

-SPACE Pacific Annual Membership-

INDIVIDUAL MEMBER - NZ\$30 per year

INSTALLER/DEALER MEMBER - NZ\$75 per year

CABLE TV/SMATV/BROADCASTER MEMBER - NZ\$150 per year

IMPORTER/MANUFACTURER/PROGRAMMER MEMBER - NZ\$250

-Charge to VISA or Mastercard as below-

☐ VISA ☐ Mastercard

Expires on _____

Name on card _____

-
- ☐ ENROL ME as an individual member of SPACE Pacific
 - ☐ ENROL OUR FIRM as an Installer/Dealer member of SPACE Pacific
 - ☐ ENROL OUR FIRM as a cable/SMATV/broadcaster member of SPACE Pacific
 - ☐ ENROL OUR FIRM as an Importer/Manufacturer/Programmer member
